Rationale

This policy has been developed as it is a requirement under DES Circular 045/2013 Anti Bullying procedures for Primary and Post Primary Schools.

Aims

The aims of the Anti bullying policy of the School of the Divine Child are-

- To ensure that staff and parents have a shared understanding of what bullying is and its impact
- To eliminate any possibility of using technology access to indulge in cyber bullying

Implementation

Every member of the school community has a role to play in the implementation of the Anti Bullying Policy. We believe that a positive learning environment is based on the quality of relationship between teachers and SNAs and the ways in which students and staff members treat one another. This positive ethos permeates all the activities of the school and helps in forming a strong sense of social cohesion within the school.

Bullying

The Anti Bullying Procedures for Primary and Post-Primary schools defines bullying as follows:

Bullying is unwanted negative behaviour, verbal, psychological or physical conducted, by an individual or group against another person (or persons) and which is repeated over time. The following types of bullying behaviour are included in the definition of bullying:

- deliberate exclusion, malicious gossip and other forms of relational bullying,
- cyber-bullying and
- identity-based bullying such as homophobic bullying, racist bullying, bullying based on a person's membership of the Traveller community and bullying of those with disabilities or special educational needs.

In the context of this policy, placing a once-off offensive or hurtful public message, image or statement on a social network site or other public forum where that message, image or statement can be viewed and/or repeated by other people will be regarded as bullying behaviour.

This anti-bullying policy will apply to all staff employed by the Board of Management, students and their families.

We recognise that for the vast majority of our students bullying is an abstract concept that is difficult to understand as it involves flexibility of imagination. Therefore our definition of what is perceived as bullying behaviour in School of the Divine Child will take into account the following observable behaviour:

- a student persistently seeking to negatively influence the behaviour of another student – e.g. deliberately triggering behaviours to annoy a peer or seeking to get another students into trouble by provoking a negative response
- a student persistently targeting another student as a focus for negative behaviour during their own behavioural outburst
- a student repeatedly removing preferential reinforcers or chosen objects from another student on a routine basis to deliberately provoke or annoy them.

As all our students have diagnosed disabilities, we will promote acceptance of everyone within the school and use all opportunities to promote a tolerant school culture. We recognise that some of our students may have issues with certain peers due to sensitivity to loud noises that they may emit or their unpredictable behaviour. The school will seek as far as possible to take these issues into consideration in the formation of class groups with the known student cohort to avoid a situation where bullying may occur because of a clash of personality between two students. It may not be possible to predict these issues with new students transitioning into our school but staff will remain vigilant to the possibility of such behaviour occurring.

Incidents of bullying behaviour are not usual in the School of the Divine Child. However, we include the following as types of bullying behaviour that might occur amongst pupils in the School of the Divine Child -

<i>Physical</i>	<i>Verbal</i>	<i>Emotional/psychological</i>
<i>Hitting Punching Spitting Damaging Throwing Objects Pinching</i>	<i>Name calling Taunting Teasing Making Offensive remarks</i>	<i>Ignoring Alienating Embarrassing someone Making fun of someone Excluding from groups Using Threatening Gestures</i>

Note - Isolated or once-off incidents of intentional negative behaviour, including aggression towards a peer do not fall within the definition of bullying and will be dealt with, as appropriate, in accordance with the school's code of behaviour.

Impact of Bullying Behaviour

We recognise that students who are being bullied may present with any of the following indicators:

- Anxiety about travelling to / from school
- Unwillingness to go to school
- Deterioration in educational performance
- Pattern of physical illnesses
- Unexplained changes in either mood / behaviour
- Visible signs of anxiety / distress
- Possessions missing
- Out of character comments
- Increased requests for money
- Unexplained bruising
- Reluctance and / or refusal to say what is troubling him / her

Procedures for reporting and investigating incidents:

- All reports of bullying should be noted, investigated and dealt with by the class teacher so that pupils will gain confidence in telling.
- Serious cases should be referred to the Principal and Deputy Principal
- Parents should be informed of any incidents at the earliest opportunity
- Students should be taught that reporting is not 'telling tales'
- Individual teachers should record and take appropriate measures in accordance with this policy
- SNAs and other staff are requested to report any incidents to class teacher. Discretion in reporting is

important.

- All reports verbal and written will be investigated. All staff and pupils will be encouraged to report any incidents of bullying behaviour.
- The class teacher will take a calm, unemotional problem-solving approach when dealing with incidents of alleged bullying behaviour by pupils, staff or parents. The teacher may wish to consult and get peer support from the Principal/Deputy Principal when dealing with an incident. The teacher will ascertain factual information using phrases such as what happened, where did it happen, when did it happen, who was involved, who witnessed, any other contextual information. The teacher will complete Template 3 of the Anti Bullying procedures in a place away from the investigation.
- Parents are asked to co-operate with any investigation and assist the school in resolving the issues.
- Any interviews should be conducted with sensitivity and with due regard to the rights of all the personnel/pupils involved. Each person will be interviewed separately initially.
- If it is determined that someone has engaged in bullying behaviour then the Principal and Deputy Principal will be informed of the incident and they will work with the class teacher, support staff, parents, members of multidisciplinary team and pupils (if relevant) to implement a whole school approach to developing positive behaviour.
- The school will work with parents in developing ways they can reinforce or support the actions being taken by the school and support their own behaviour.

Areas such as the dining room and playground are carefully supervised and pupils are allowed into these areas at the discretion of the Teacher in charge.
